PROJECT EXPERIENCE

Obstacle Avoidant Robot Car (AVR State Machine)

November 2025 - December 2025

- Programmed an ATmega328P robot car in C with PWM motor DC control and servo positioning
- Implemented ADC sampling for sensor feedback and used interrupts/timers to coordinate motion & sensing
- Troubleshoot hardware/software issues (pin mapping, timer conflicts, serial diagnostics) to achieve reliable runs

Trade Trend Forecasting

June 2025 - July 2025

- Built a Python model to forecast trade outcomes using years of previous trade data for a wealth management director at UBS
- Cleaned and analyzed market indicators to identify factors linked to post-earnings performance
- Applied ML (decision trees) to map outcome probabilities and visualize market patterns

WORK EXPERIENCE

Crescent Pine Family Office Group | Greenwich, CT

June 2024 - July 2024

Summer Analyst Intern

- Led a group of eight in evaluating and presenting an investment opportunity focused on Self Storage, developing ability to assess investment strategies and effectively communicate ideas
- Gained unique insight from many highly qualified guest speakers across various areas of finance
- Secured top position in the firm's \$25 million mock trading contest, utilizing Stocks & Derivatives

Rye Recreation Summer Camp | Rye, NY

June 2022 – August 2023 (Seasonal)

Camp Counselor

LEADERSHIP & COMMUNITY INVOLVEMENT

WRCU 90.1 FM | Colgate University

August 2022 - May 2026

Program Director

November 2024 – December 2025

- Organize and implement the 2025 Spring and Fall broadcasting schedules, ensuring cohesive and engaging programming for 100 shows with ~150 student/faculty DJs
- Train and oversee all new DJs every semester while conducting regular quality checks to uphold broadcasting standards
- Responsible for reviewing show applications and delivering results whether positive or negative

Radio DJ

August 2022 – May 2026

- Continue to host two hour-long FM radio shows every semester
